

Having a custom portrait made is one of the best gifts you can give to your family, friends or to yourself.

Portrait painting can be done from life models/sitters or from detailed photographs. The benefit of making a portrait from a photograph is that the complete process from start to finish will be a lot faster and of course it will also be a lot more comfortable for the portrayed person since there won't be any need to sit for hours in a pose. All I would need in this case is a few high-quality pictures: basically one main photo for the actual portrait and a few more photos to better understand the characteristics of the portrayed person. If you don't have any quality photographs you can always find a professional photographer to do this for you or you can simply hire me for a photo shoot.

A normal photo session takes around an hour, if it's a children's photo session you will need to count an additional 1-2 hours. For a photo session I charge 50 Euros per hour (excluding wedding sessions) and an additional 35 Euros as a show up fee (if distance to travel to the photo shoot is one hour or less by car, should the distance be greater we can always work out a price). Optionally, I can also create a detailed background for your portrait by making landscape photos or photos of any significant objects.

My favorite style of painting is realism or surrealism. I can however create your portrait in any style, such as pop art, cubism and impressionism and many other techniques representative to current contemporary art.

For your portrait you will also need to choose the materials. The portrait can be made in pastel, watercolor, marker pen, bistre, a dry brush technique on paper, acrylic paint or oil paint on a canvas.

**For portrait drawings:** The paper weight is from 200g to 300g and finished works will be protected by a fixative. All prices include simple backgrounds. For customized backgrounds (for example painting with car on background, favorite rosebush, forest on background,...) please add an additional 50% to the base price of a 1 person portrait. The delivery time for portrait drawings are estimated to be from 1 week up to 1 month.

**For portrait paintings:** Small-sized paintings (<50cm) are only available for head and shoulder portraits. Full-length portraits are only available for sizes >70cm (additional 30% to the base price). For nude portraits please add an additional +40% the base price. Finished work will be protected by varnish. Delivery time: from 2 weeks up to 3 months depending on materials used, size and difficulty of portrait.

**Portraits in Pop Art style** on the other hand are created in vector format and are priced at 50 EUR per person. They can also be painted on paper or canvas for an additional price. A vector format allows for large scale printing. The delivery time for portraits in a Pop Art Style are estimated to be from 3 days up to 2 weeks.

For studies (sketches): sessions usually lasts 2-3 hours and cost around 300 Euros. Included in the price are 10 sheets of paper (30x40 cm). Sketches can be made of head or can be full-length portraits (nude or dressed). Watercolor or pastel are great materials for fast drawing. Finished work will be protected by fixative or varnish.
